

## Overview:

Spring term

## Topic:

Growth and Survival

## R.E.

The children will be learning all about special occasions, lent and holy week. They will learn about forgiveness and why it is so important.

## Maths.

Preparation for Year 2 SATS. This will focus on worded questions using addition, subtraction, multiplication and division. They will look at fractions, shape and money.

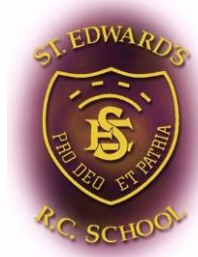

## P.E.

This half term the children will be keeping fit and healthy by learning how to play different games, focusing on team spirit and team work.

## Music/PSHE.

Children will continue to focus on how to protect and look after themselves. They will learn the correct names for body parts and understand how to stay safe.

YEAR: 2

## English.

Children will be using conjunctions to join together and a variety of punctuation in their writing. They will also focus on using different sentence starters. Handwriting will also be a focus this half term.

## ICT

Children will continue how to use the internet safely to research topics studied. They will use different programs to produce non-fiction work.

## History/Geography

Children will be looking at maps, creating keys and linking this to science and English topics.

## Science.

Children will be learning all about growth and survival. They will also understand how food chains work.

## Art/Design and Technology.

Children will be continuing to design their own hot air balloons.

## Home Learning.

Continue to read daily at home and ask questions about the story. Don't forget to look at information texts.
