

# Reception Class Summer Overview

## Our themes for this

term are:

**Pirates/ Growing / Mini beasts**

(In Reception class, we also adapt our planning on a week to week basis, to reflect the children's interests).

## Personal, Social & Emotional Development

The children will be learning:

### Making relationships

To play co-operatively, taking turns with others. They take account of one another's ideas about how to organise their activity. They show sensitivity to others' needs and feelings, and form positive relationships with adults and other children.

### Self confidence

To try new activities, and say why they like some activities more than others. They are confident to speak in a familiar group, will talk about their ideas, and will choose the resources they need for their chosen activities. They say when they do or don't need help.

### Managing feelings and behaviour

To talk about how they and others show feelings, talk about their own and others' behaviour, and its consequences, and know that some behaviour is unacceptable. They work as part of a group or class, and understand and follow the rules. They adjust their behaviour to different situations, and take changes of routine in their stride.

## Physical Development

The children will be learning:

### Moving and handling

To show good control and co-ordination in large and small movements. They move confidently in a range of ways, safely negotiating space. They handle equipment and tools effectively, including pencils for writing.

### Health and self-care

Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe. They manage their own basic hygiene and personal needs successfully, including dressing and going to the toilet independently.

## Communication and language

The children will be learning:

### Listening and Attention

To listen attentively in a range of situations. They listen to stories, accurately anticipating key events and respond to what they hear with relevant comments, questions or actions. They give their attention to what others say and respond appropriately, while engaged in another activity.

### Understanding

To follow instructions involving several ideas or actions. They answer 'how' and 'why' questions about their experiences and in response to stories or events.

### Speaking

To express themselves effectively, showing awareness of listeners' needs. They use past, present and future forms accurately when talking about events that have happened or are to happen in the future. They develop their own narratives and explanations by connecting ideas or events.

## Literacy

The children will be learning:

### Reading

To read and understand simple sentences. They use their phonic knowledge to decode regular words and read them aloud accurately. They also read some common irregular words. They demonstrate understanding when talking with others about what they have read.

### Writing

To use their phonic knowledge to write words in ways which match their spoken sounds. They also write some irregular common words. They write simple sentences which can be read by themselves and others. Some words are spelt correctly and others are phonetically plausible.

## Understanding the world

The children will be learning:

### People and Communities

Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.

### The World

To know about similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another. They make observations of animals and plants and explain why some things occur, and talk about changes.

### Technology

Children recognise that a range of technology is used in places such as homes and schools. They select and use technology for particular purposes.

## R.E.

The children will be learning:

About the Resurrection of Jesus and understand that at Easter we celebrate Christ being alive. They will be able to identify the Easter Candle as a symbol of this season. About the story of Pentecost and recognise some of the changes that took place in the Apostles. They will also know some of the symbols the Church uses to celebrate the Feast of Pentecost.

To know that at Baptism they are given a Christian name. They will be able to participate in a role-play of the celebration and identify a few symbols of Baptism. They will know that Baptism is a special celebration to welcome people into God's Family. They will also know that Jesus' Presentation in the Temple was a special celebration for him.

## Mathematics

The children will be learning:

### Numbers

To count reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number. Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. They solve problems, including doubling, halving and sharing.

### Shape, space and measure

Children use everyday language to talk about size, weight, capacity, position, distance, time and money to compare quantities and objects and to solve problems. They recognise, create and describe patterns. They explore characteristics of everyday objects and shapes and use mathematical language to describe them.

## Expressive art and design

The children will be learning:

### Exploring and using media and materials

To sing songs, make music and dance, and experiment with ways of changing them. They safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.

### Being imaginative

To use what they have learnt about media and materials in original ways, thinking about uses and purposes. They represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories.
