

# CODING CLUB

“

Every child born this century should learn to code!

- Bill Gates

ESSENTIAL SKILLS FOR YOUR FUTURE

LIMITED PLACES

Innovation Pod will be running its award-winning Coding Club at St Edwards

YEAR 3-6 - TUESDAY

Children in KS2 will be engaging with our Code Combat module, an interactive and exciting way to introduce them to the fundamentals of Python programming. This module is designed to develop their problem-solving skills while immersing them in a series of fun and challenging programming games. Throughout the course, pupils will be required to type lines of Python code to complete a variety of engaging puzzles and tasks. As they progress, they will gradually build their understanding of key coding concepts, including syntax, arguments, strings, loops, variables, and algorithms.

By working through these challenges, students will not only enhance their computational thinking skills but also develop resilience, logical reasoning, and creativity. This hands-on approach ensures that they gain a solid foundation in Python, one of the most widely used programming languages in the world. By the end of the module, pupils will have improved their coding confidence and be better equipped to tackle more advanced programming concepts in the future.

Sign up using this link: <https://app.joinin.online/#/app/joinin/login>

Classes will start straight after school and finish at 4:30pm. Clubs cost £7 which is paid via a one-off Direct Debit. This is NOT a recurring payment.

Clubs will resume on the 28th April - 14th July (excluding half term)
