Dear Parents and Carers,

We are writing to share some important news and to ask for your support as a school community.

One of our pupils, who has been receiving treatment for acute lymphoblastic leukaemia, is beginning a gradual transition back to school. This is a significant and positive step in her recovery, and we are committed to making her return as safe, inclusive, and supportive as possible.

Due to the nature of her treatment, she remains immunosuppressed, which means she is particularly vulnerable to infections that may be mild for others but potentially serious for her. As such, we are asking all families to be especially vigilant and to follow NHS guidance regarding common viruses that may circulate in school, including:

- **Norovirus**
- **COVID-19**
- **Measles**
- **Chickenpox**
- **Shingles**
- **Scarlet Fever**

If your child is unwell or showing symptoms of any of these illnesses, please keep them at home and seek medical advice where appropriate. We also ask that you inform the school immediately if your child is diagnosed with any of the above conditions so that we can take appropriate precautions.

Your cooperation is vital in helping us protect the health and wellbeing of all our pupils, especially those who are medically vulnerable. We know our school community will rally together to support this pupil and her family during this important time.

With kind regards,

Mr. T Carroll
